Subject: B Sand data

Stacey,
Sorry not to have emailed you the information on Friday (yesterday) as planned. We had a couple of personnel in the field just QA/QC-ing some of the casing elevations. It is our intentions to deliver to you a completed data set that has been thoroughly reviewed so that you and your team will not have to dig through the voluminous data. It will all be easily reviewed with our interpretation of GW flow in graphical form.

Sorry for the small delay.

Best regards,
Harry
